They do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. present are tabulated in nonfamily households. "Nonfamily households" consist of people living alone and households which do not have any

members related to the householder.

It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been sold but not yet occupied; and then multiplying by 100.

[9] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of the renter-occupied units, vacant units that are "for rent," and vacant units that have been rented but not yet occupied; and then multiplying by 100.
